Unplanned Pregnancy Counselling

This service is **free of charge** and is available for clients to discuss all choices including parenting, adoption and abortion when dealing with an unplanned or crisis pregnancy. If you wish to bring a friend, family member, and/or partner for support you are welcome to do this.

Client Centred * Non-directive * You can discuss all options

Get our information pack * Skills for self-care & preparation

You can attend either before a **first Early Medical Abortion (EMA)** visit, or between **visit 1 & 2**

This service is also available to those who would need to access an abortion outside Ireland.

EMA Aftercare

This service is available for women, men and couples. Whether you have recently had an abortion or had an abortion some time back – **you can avail of a number of counselling sessions free of charge depending on your own individual needs.**

Client Centred * Emotional Support * Self-Care Skills

Re-sourcing Supports * Relationships * Solution Focused

Foetal Abnormality

Counselling is available for women, men and couples who have received a diagnosis of a serious or a fatal foetal abnormality.

We aim to support the family at this difficult time.

Our services are client-centred, discussing options and supports, self-care, healthy communication and, should the client need it, support in their grieving process.

Counselling is a place to talk about complex and painful emotions, thoughts and feelings which may be difficult to talk about with others.
